

## INGREDIENTS TO VACCINES - You CANNOT make an educated decision without being educated.

Here are just SOME vaccine ingredients.

These are being INJECTED into your kids;

- Formaldehyde/Formalin - Highly toxic systematic poison and carcinogen.
- Betapropiolactone - Toxic chemical and carcinogen. May cause death/permanent injury after very short exposure to small quantities. Corrosive chemical.
- Hexadecyltrimethylammonium bromide - May cause damage to the liver, cardiovascular system, and central nervous system. May cause reproductive effects and birth defects.
- Aluminum hydroxide, aluminum phosphate, and aluminum salts - Neurotoxin. Carries risk for long term brain inflammation/swelling, neurological disorders, autoimmune disease, Alzheimer's, dementia, and autism. It penetrates the brain where it persists indefinitely.
- Thimerosal (mercury) - Neurotoxin. Induces cellular damage, reduces oxidation-reduction activity, cellular degeneration, and cell death. Linked to neurological disorders, Alzheimer's, dementia, and autism.
- Polysorbate 80 & 20 - Trespasses the Blood-Brain Barrier and carries with it aluminum, thimerosal, and viruses; allowing it to enter the brain.
- Glutaraldehyde - Toxic chemical used as a disinfectant for heat sensitive medical equipment.
- Fetal Bovine Serum - Harvested from bovine (cow) fetuses taken from pregnant cows before slaughter.
- Human Diploid Fibroblast Cells - aborted fetal cells. Foreign DNA has the ability to interact with our own.
- African Green Monkey Kidney Cells - Can carry the SV-40 cancer-causing virus that has already tainted about 30 million Americans.
- Acetone - Can cause kidney, liver, and nerve damage.
- E.Coli - Yes, you read that right.
- DNA from porcine (pig) Circovirus type-1
- Human embryonic lung cell cultures (from aborted fetuses)

 You can view all of these ingredients on the CDCs website. I encourage everyone to do their own research. Look up the MSDS on these chemicals. Read the thousands of peer reviewed studies that have evaluated the biological consequences these chemicals can have on the body, especially when being injected.
