Heart Attack Gun (HAG) is a weapon that was revealed in 1975 at a hearing of a committee led by Frank Church. At the hearing, Church showed off the CIA's heart attack gun, which was a modified **Colt 1911**. The gun is electrically powered by a battery and fires an extremely small bullet of ice with frozen shellfish toxin in the centre.

The 1975 probe into the CIA lasted nine months, and the heart attack gun, a modified **Colt 1911**, the weapon used to fire the dart, was mentioned. READ Remember The Maine, To Hell With Spain! His 2012 heart attack death at age 43, during a late night stroll near his LA home, was claimed to have been induced by the HAAG. No proof of course as any resultant autopsy finds nothing but plain old heart attack residue-and dealing with CONoners goes nowhere. Needless, to say, many have been murdered over the years prior to the Briitbart speculation. When you read how many enemies he made.....Bob)

NEWER TECH NOW.

⬢ What I've found in the refugee forced/planned exodus is a policy goal that is now coming into view. Home owners or even renters are required in these policies to allow unhoused people to move into spare bedrooms. While this sounds like a solution to displaced people there's a long ago scheme to force increased housing occupancy. Always keep in mind the refugee "planned" crisis has goals beyond the chaos, loss, shock, family separations, emotional stresses, loss of personal possessions and so much more. Unused space in existing housing will be monitored for required room sharing. Housing families in a single bedroom is not new. Many many countries and families have been forced to double and triple up in smaller spaces in order to survive all the limitations and high cost of living. This has been a plan. These families are unknowingly forced into life changes they would not have agreed to. Deborah - StopTheCrime.net.
